

Belgian Polyposis Project
Hereditary Colorectal Cancer Project

Rare Cancer Initiative

Budget:

Funded with a budget of 14,800€.

Timing:

From January 2023 to February 2024.

Deliverables:

Podcast available in both Dutch and French.

Status:

The podcasts have been successfully produced and are now published on Mixcloud, making them easily accessible for GPs and other healthcare professionals. Also distributed via electronic newsletters of professional organizations.

Rare Cancer Initiative

Round Table Discussion:

- **Testimonial:** Eddy and Marc share their personal experiences in the ‘diagnostic odyssey’.
- **GP from Professional Organization (Domus Medica & AFMG)**
 - Discusses the professional perspective and the importance of awareness within the medical community.
 - Highlights aspects published in the Belgian memorandum on rare diseases, including recommendations on the use of tools for diagnosis (such as AI and the Orphanet.be).
- **Geneticist from one of the 8 Belgian centers specializing in rare diseases**
 - Emphasizes that GPs can refer patients to one of these centers or to a specialist if they have any doubts.
