What our users say

Catarina Beldiceanu (Romania)
This App has a lot of information, the most info on the topic I have ever seen in one place, and is well structured, on top of that 🙌

Richard Chapman (United Kingdom)
I'm very impressed by the first look-through of My DICE Companion. I've found the information very useful, it's taught me a lot more!

Virginia Savelber (Sweden)
Seeing My DICE Companion come to life and using it in person, I have to say I am hugely impressed, and it gets 10 🌟s from me! You will probably won't find a more comprehensive, patient-focused app for oesophageal cancer.
